

Thursday 4 March 2021

Dear Parents/Guardians

As you are aware our School was closed this morning and will re-open on Monday. Last night we were informed that 3 parents had tested positive for Covid-19. When this happens the IEA protocol requires the principal to notify the IEA immediately. The outcome to this was to ensure the particular classrooms were deep cleaned before students arrived this morning. Then at 7.50 this morning I was informed that one of our students, from another family, had tested positive, resulting in the IEA CEO closing our School so we can perform a whole School deep clean.

Even though these notifications happened at awkward times the actual closing of the School went quite smoothly and I'd like to thank the parents/drivers for being so understanding and supportive.

All the other students in the class with the positive child are also required to have 2 weeks quarantine.

Later in the morning we had a debrief on our procedures and were congratulated for the prompt response and action. We also had a senior member of WHO, NCDC and IEA in attendance to review our procedures. Following this we briefed our School Board members with the IEA and WHO reps in attendance.

We had hoped to launch our official TEMIS Facebook page today but have experienced a glitch which requires Facebook to solve the issue. Once launched this page will become a source of the latest information for our School community.

**** Please keep checking our School Website over the weekend for any further updates ****

Regards

Neal

Neal Maxwell
TEMIS Principal.
